

People Shuttles (Getting from here to there)

Once you have arrived and unloaded your goodies you will be required to park your vehicle down in South Meadow. From that point you will have two opportunities to return to your goodies. All vehicle parking located at the BackShop, Containerville, Central Station and the Vendor Barn area is 15 minutes maximum from 9:00 am to 5:00 pm daily during the Work Week and the Meet.

One opportunity to get back to your goodies after parking your vehicle will be a pair of shuttle vans and an assortment of golf carts. They will pick up at a single station on Katy Lane and take you to either the K&W yard area or the Triennial Shuttle depot that will be located in front of the Vendor Barn. The drivers have strict instructions to only use these pickups and drop off locations. PLEASE do not try and flag them down to pick you up as they are instructed to not pick you up or take you to your vehicle. Your patience and understanding is requested in this operation.

As an alternate opportunity you can also take a Train Shuttle from Midway up to the Triennial Depot in front of the Vendor Barn. Either of these methods will be available during the Work Week and the Meet.

Either method will also allow you to carry some small articles like your ice chest, gas cans or tool boxes on your journey. Once again your patience and understanding will be most appreciated.
